Referencia : SB0009

Cabo Thunderbolt - 1.0m ACT (SB0009)

Fabricante : ACT

Thunderbolt technology supports fast data transfers via two independent channels of 10Gbps each. With Thunderbolt 2 technology LINDY's range of Thunderbolt Cables bond these two channels together for a super-fast 20Gbps bi-directional connection capable of 4K video file transfers alongside simultaneous video display and power delivery.

- Thunderbolt Generation 2 (20-pin) Male to Male
- Combines Data, Video and Power in one cable
- Supports 4K video and DisplayPort 1.2
- Bandwidth: 20Gbps bi-directional (10Gbps each line)
- Backwards compatible with Thunderbolt Generation 1
- Colour: White

Datasheet

NOTE : Thunderbolt cables EXCLUSIVELY can be used with Thunderbolt devices and Thunderbolt graphics cards. They can NOT be used with Mini-DisplayPort devices or graphics cards. FormDP devices or graphics cards please use our less expensive mDP cables.

This cable is specifically designed to provide a reliable solution for device connections of up to 0.5m. Use it to connect Thunderbolt-enabled devices to the Thunderbolt or Thunderbolt 2 computer ports. Easily daisy chain up to 6 compatible devices together for dual channel, bi-directional data transfer capability plus provide power for bus-powered devices.
