VGA & Audio to HDMI ConverterCable 3m

Converts VGA video signal and analog audio to an HDMI signal, maximum resolution 1080p

This converter cable is connected and simply converts a VGA monitor signal and an audio signal to an HDMI signal, for example, for output to a HDTV television. The resolution of the video signal is not changed.

- Converts VGA video signals and audio to HDMI
- Perfect for connecting older VGA equipment to a HDMI display
- Powered by USB
- Supports resolutions up to 1080p
- Simple plug and play installation

NOTA : Neste artigo o cabo USB e de Áudio, têm +/- 23cm de comprimento. Se a sua porta de USB ou de Áudio se encontram a uma distância maior da entrada VGA do seu computador, deve considerar adquirir uma extensão USB e/ou Audio.
