DVI Cat5e/6 Extender 70m LINDY (38300)

Referencia : 38300

DVI Cat5e/6 Extender 70m LINDY (38300)

Fabricante : Lindy

Send digital DVI signals up to Cat.5e/6 flexible cable RJ45 70m!

- Supports resolutions from 800x600 up to 1920x1200 including 1080p
- The Extender supports the following resolutions/distance combinations:
 - 800x600 up to 70m
 - 1024x768 up to 65m
 - 1280x1024 to 1920x1200 up to 50m
- HDCP not supported

With this Extender you can use up to 70m of high quality inexpensive Cat.5e/6 cable to connect a DVI source to a DVI display device. The slim RJ45 connectors and Cat.6 cable (not included) allow greater flexibility not possible with larger DVI connectors and cables. Normal operation will not require external power; however the Transmitter unit allows external power to be attached in cases where the graphics card does not provide sufficient power, either using a USB Micro-B Cable or an external power supply connected to the supplied USB to DC cable.

The Extender supports the following resolutions/distance combinations:

- 800x600 = 70m
- 1024x768 = 65m
- 1280x1024 up to 1920x1200 = 50m

Technical information

- Up to 1920x1200 @ 60Hz=1080p up to 50m with Cat.6 UTP or PiMF (S/FTP)
- 800x600 up to 70m
- Supports HDTV resolutions 480i up to 1080p
- Does not support HDCP nor Audio over DVI
- Includes Micro-B USB to DC power cable
