5m Extension for 2 USB Type C and 2 USB Type A devices

- High performance hub with active cable that provides an extended 5m connection between a computer and up to 4 USB devices
- Connects 2 USB Type A and 2 Type C peripherals to a computer's USB Type A Port
- Supports the USB 3.2 / 3.1 Gen 1 / USB 3.0 SuperSpeed bandwidth for speeds of 5Gbps
- USB Bus powered, with DC socket for external power supply (not included)

The Lindy 5m USB 3.0 Hub uses built-in active electronics to extend the cable length of up to four USB devices by an additional 5m. It provides 2 USB Type A and 2 USB Type C SuperSpeed ports for connecting up to 4 peripherals such as storage devices, printers or webcams to a USB Type A equipped computer at longer distances, while also ensuring flexible positioning. Capable of data transfer speeds of up to 5Gbps, the hub is also backwards compatible with USB 2.0 and 1.1.

The hub is powered by the USB Bus, while it also features a DC socket for connecting an external 5VDC power supply (not included) when using USB peripherals which have higher power requirements. With Plug & Play installation, no drivers are required, therefore this hub can be installed with minimum difficulty.
